**Professional Activities**
(list other contributions to the university and community as a graduate student)
Thesis Progress Report

Maximum length of 5 pages (11+ pt, single spaced) plus appendix with references, figures and tables

1. Statement of the Research Problem (1 page)

- Provide a brief scientific introduction to the research problem.
- Provide background information that logically leads to one more hypotheses that will be tested.
- Briefly describe the rationale and significance of the work to be undertaken.

2. Research Objectives and Approach (1/2 page)

- State 1-3 specific research objectives in point form.
- Each objective should be a sentence of what you will learn (what data will be acquired).
- Following each objective, provide a short paragraph with the specific approach and expected outcomes.

3. Summary of Results (3 pages)

A. Work accomplished in previous years

- For each specific research aim, summarize the major results.
- If the work is published, give the citation.

B. Work accomplished since last committee meeting

- Organized by specific research aim, describe your most recent work.
- Figures and tables can be attached to the appendix.

4. Summary of Future Work (1/2 page)

- In point form, list the work to be performed in the coming year.
Appendix (max 6 pages)

- References,
- Figures and tables of your data
